AN ACT
PROVIDING FOR FREE MEALS FOR STUDENTS OF THE PUBLIC EDUCATION SYSTEM PARTICULARLY SCHOOLCHILDREN FROM KINDERGARTEN TO JUNIOR HIGH SCHOOL, FOLLOWING THE K-12 POLICY, PROVIDING FRAMEWORK FOR ITS IMPLEMENTATION, APPROPRIATING FUNDS THEREFOR, AND FOR OTHER PURPOSES

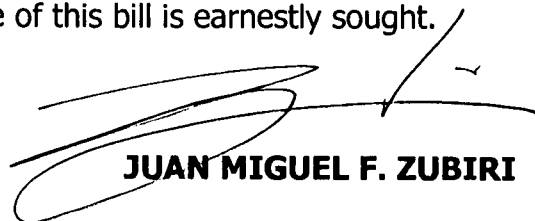

EXPLANATORY NOTE

A news article¹ reveal that undernutrition remains to be a public health problem among students across ages. In fact, a lot of impoverished children go to school on an empty stomach while those who can afford to buy food feed on junk snacks that are low in nutritional value. Unicef² says that even short-term hunger can adversely affect a child's ability to learn, while micronutrient deficiencies impair children's cognitive and motor skills and even their Intelligence Quotient.

Despite the government's efforts to combat hunger, the 2012-2013 figures from the Department of Education show that more than half a million Filipino schoolchildren are severely, underweight and that their height and weight do not corresponds to their age requirement. Imagine having underweight and stunted students as future leaders.

Recognizing the vital role of our youth in nation-building, as enshrined in the 1987 Constitution, the **National School Meal Program Act** provides legislation for the operation of the school meal program as permanent and essential part of our public education system. This proposed measure seeks to address undernutrition, malnutrition, and hunger among school children in our public education system by providing free meals to students from Kindergarten to Junior High School, following the K-12 Policy, and encourage the consumption of nutritious agricultural commodities and other food.

In view of the foregoing, early passage of this bill is earnestly sought.
