

SEVENTEENTH CONGRESS OF THE)
REPUBLIC OF THE PHILIPPINES)
First Regular Session)

SENATE

S. B. No. 280

Introduced by Senator FRANCIS G. ESCUDERO

AN ACT
ESTABLISHING AN EDUCATION TRUST FUND FOR GRANTEES OF GSIS AND
SSS MEMBERS AND FOR OTHER PURPOSES

EXPLANATORY NOTE

To achieve social justice, social stability, economic development, peace and prosperity, one of the most compelling concerns that we must address is the total development of the person as a functional and productive member of the society.

It is in this light that our Government has long recognized that Education should be given the highest priority in terms of State support and State resources. Consequently with this prioritization, education has been consistently given the biggest slice of the budgetary pie.

Article XIV, Section 1 of the Constitution declares:

"The State shall protect and promote the right of all citizens to quality education at all levels and shall take appropriate steps to make education accessible to all."

Likewise, Article II, Section 17 of the Constitution also declares:

"The State shall give priority to education, science and technology, arts, culture and sports to foster patriotism and rationalism, accelerate social progress and promote total human liberation and development."

To achieve our concerns and implement this Constitutional mandate, the State shall provide the mechanisms to broaden opportunities to higher education in addition to what is already provided for in RA 7722. "The Higher Education Act of 1994," RA 6728 "The Government Assistance to Students and Teachers in Private Education Act," and RA 8392 "The Higher Education Modernization Act of 1998."

Considering that our financial capability as a nation does not permit us to subsidize every Filipino child's education from pre-school all the way to college, it is therefore a fact that government alone can not address the issue of providing education for all.

This bill therefore proposes to broaden opportunities and promote education as an accessible equalizer through the partnership of Government and the private sector

thus, ensuring the education shall become an effective instrument in improving the life of the majority of the Filipino people.

In fact in our hierarchy of values, most consider education over and above clothing and shelter. This bill shall strengthen education as a means of an upward mobility; thus passage of this bill is hereby urged.

FRANCIS G. ESCUDERO
