

SEVENTEENTH CONGRESS OF THE )  
REPUBLIC OF THE PHILIPPINES )  
First Regular Session )

'16 JUL 21 AIO :44

SENATE

S. B. No. 741

RECEIVED BY:

Introduced by Senator FRANCIS G. ESCUDERO

AN ACT  
PROVIDING FOR THE DELINEATION OF THE SPECIFIC FOREST LIMITS OF  
THE PUBLIC DOMAIN AND FOR OTHER PURPOSES

EXPLANATORY NOTE

Section 4, Article XII of the 1987 Constitution states that *"The Congress shall, as soon as possible, determine by law, the specific limits of forest lands and national parks, marking clearly their boundaries on the ground. Thereafter, such forest lands and national parks shall be conserved and may not be increased nor diminished, except by law. The Congress shall provide, for such period as it may determine, measures to prohibit logging in endangered forests and watershed areas"*.

Based on the 2001-2003 satellite imageries reported out by the National Mapping and Resource Information Authority (NAMRIA), the total forest cover of the Philippines is estimated at 7.168 million hectares or 24.27% of the country's total land area.

Lack of demarcation on the ground resulted to confusion as to the actual size of the forest lands of the country which later resulted to incorrect land use and management.

This proposed legislation seeks to delineate the specific limits of forest lands in order to conserve, protect and develop the forest resources of the country in order to attain ecological balance, preserve valuable ecosystems, prevent environmental degradation and promote sustainable development for the present and future generations.

This bill was reported out in the Fifteenth Congress as Senate Bill No. 3326 under Committee Report No. 464 and was approved on Second Reading.

I submit.

FRANCIS G. ESCUDERO
