S. B. No. 761

REFERRED BY: 

Introduced by Senator FRANCIS G. ESCUDERO

AN ACT
REVITALIZING THE COCONUT INDUSTRY, APPROPRIATING FUNDS
THEREFOR AND FOR OTHER PURPOSES

EXPLANATORY NOTE

This bill is being filed as a counterpart measure of House Bill No. 1998 filed by Rep. Sharon Garin in the House of Representatives.

It is the policy of the State to recognize the essential role of coconut as a strategic, indigenous, replenishable and renewable source of livelihood for a great number of people.

The coconut industry, which covers 3,563 hectares or 26% of the total agricultural land in the country, is one of the biggest agricultural industries in the country. It produces an annual average of 15.2 billion coconuts, with over 24 million direct and indirect stakeholders in over 69 provinces in the country.

The Philippine Coconut Authority was created pursuant to Presidential Decree 232 in 1973 to promote the accelerated development of the coconut industry and to provide policy directions for such purpose. Subsequent legislations were also enacted for the same purpose, the last being Presidential Decree 1468 in 1978. However, said laws were created to address the conditions of the coconut industry almost 4 decades ago, making the present charter of the Philippine Coconut Authority undeniably deficient.

Thus, this bill brings about the necessary transformations to the Philippine Coconut Authority both at the policy and operational levels, by legislating a Coconut Industry Development Act which will provide an up-to-date overall strategic guidance to the industry. To implement the policy and objectives of this measure, a non-stock, government corporate entity known as the Philippine Coconut Industry Development Authority (PHILCIDA) is created and established, headed by a 7-member Board of Directors with its Chairman as head and Chief Executive Officer of the Authority.

This measure equips the PHILCIDA with solid and multifaceted mandate, which focuses on developmental, governmental, regulatory, research and development, and corporate powers and functions. It also provides assistance to coconut farmers through marketing assistance and other extension services to boost the yield and expand the income of coconut farmers, as well as intermediation and arranging services for

investment, financing, and trade, among others. It also presents measures on rehabilitation and fertilization of coconut trees.

Removal of corporate restriction of PCA is also proposed to make it a profitable, sustainable, and development-oriented agency. In 2013, PCA had only a subsidy of around P939.750 million, equivalent to a mere 1.86% of the total allocation of the Department of Agriculture.

Research and development is also provided in the bill to cultivate a culture of scientific excellence and professionalism in its agricultural and industrial research and establish credence to the initiatives, findings, and innovations of PCA. This will allow the development and propagation of new discoveries and technologies.

In view of the foregoing, the passage of this measure is fervently sought.

ARTICLE I
GENERAL PROVISIONS

1 SECTION 1. *Short Title.* - This Act shall be known as "*The Coconut Industry*
2 *Development Act.*"
3

4 SECTION 2. *Statement of Policy.* - It is the policy of the State to recognize the
5 essential role of coconut as a strategic, indigenous, replenishable and renewable
6 source of livelihood for a great number of people. Towards this end, the State shall
7 promote the rapid, steady and continuous integrated development and growth of
8 the coconut industry in all its aspects and ensure that the coconut farmers, farm
9 workers, processors, lessees and tillers, and their families, shall become direct
10 participants in, and beneficiaries of, such development and growth thereby
11 increasing their income and uplifting their quality of life.
12

13 As used in this Act, "coconut" shall encompass coconut trees and oil palm
14 trees, and coconut and oil palm-based products and by-products.
15

16 SECTION 3. *Goals and Objectives.* - Pursuant to the above-mentioned policy,
17 the effort of government shall be directed towards the following goals and
18 objectives:
19

- 20 a) Promote the steady, accelerated, and orderly development of the coconut
21 industry consistent with the agrarian reform policy of the government;
22
23 b) Develop and establish the coconut farming systems including but not
24 limited to the establishment of model coconut farms;
25
26 c) Hasten and advance industrialization in the coconut industry and the
27 diversification and proper utilization of coconut products and by-products,
28 and oil palm products and by-products;
29
30 d) Promote the effective utilization and marketing of coconut products and by-
31 products and oil palm products and by-products in the domestic and
32 foreign markets and preserve the competitiveness and reliability of the

1 country as a major producer and supplier of said products, by establishing
2 national standards acceptable in the international market;

- 3
- 4 e) To increase production by expanding the planting and replanting program
5 of coconut trees in strategic areas identified as having the most potential
6 and the rehabilitation and fertilization of existing coconut trees;
7
- 8 f) Conduct scientific researches and investigations in all areas pertaining to
9 agricultural, industrial, marketing and socio-economic aspect of the coconut
10 industry and encourage the participation of small farm holders in research
11 and technology;
12
- 13 g) Encourage and promote the organization of coconut farmers cooperatives,
14 associations, and organizations and provide them credit and financing
15 schemes;
16
- 17 h) Generate and disseminate information and communication to farmers,
18 producers and other sectors to ensure the appreciation and adoption of
19 appropriate technology and practices, inventions, as well as the proper
20 awareness and correct understanding of issues and development in the
21 coconut industry; and
22
- 23 i) Coordinate and integrate all efforts of various agencies of government and
24 provide general direction for the steady and orderly development of the
25 industry.

13

14 SECTION 22. *Application for Registration.* - Any person directly or indirectly
15 engaged in the manufacture, processing, and other business involving coconut
16 products and by-products, and other oil palm products and by-products to be
17 determined by the Authority pursuant to its rules and regulations shall apply for
18 registration with the Authority.
19

20 SECTION 23. *License to Operate.* - Upon approval of application for
21 registration, the Authority shall issue the corresponding license to operate under
22 such rules and regulations promulgated for the purpose. The application for
23 registration and license shall be mandatory for both the principal and his agents in
24 the case of natural persons, and the central or main offices and their branches or
25 subsidiaries in the case of juridical persons.
26

27 **ARTICLE VII**
28 **COMMODITY SUPERVISION**

29 SECTION 24. *Application for Export Clearance.* - Notwithstanding any
30 provision of law to the contrary, all exporters of copra, coconut oil, desiccated
31 coconut, copra cake or meal, and other coconut products and by-products shall file
32 with the Authority, not later than ten (10) days prior to the date of loading, an
33 application for export clearance pursuant to such forms prescribed by the Authority
34 under its implementing rules and regulations.
35

36 SECTION 25. *Use of Moisture Meter.* - For an accurate determination of
37 moisture content in the copra *rescada*, and in observation of the standard scale for
38 moisture content established by the Authority, all persons or firms engaged in the
