SENATE

S. No. 828

RECEIVED BY: 

Introduced by Senator Ralph G. Recto

AN ACT
PROMOTING THE TREATMENT AND ERADICATION OF TUBERCULOSIS,
AMENDING FOR THE PURPOSE SECTION 12 OF REPUBLIC ACT NO. 7875, AS
AMENDED BY REPUBLIC ACT NO. 10606, OTHERWISE KNOWN AS "AN ACT
INSTITUTING A NATIONAL HEALTH INSURANCE PROGRAM FOR ALL
FILIPINOS AND ESTABLISHING THE PHILIPPINE HEALTH INSURANCE
CORPORATION FOR THE PURPOSE"

Explanatory Note

Tuberculosis (TB) is an ancient infectious disease which has probably killed more people than any other disease in history. Around 2 billion people in the world are infected with the TB bacilli, of which about 10% become ill with TB at some point in their life.

In the Philippines, tuberculosis remains to be a major public health concern. It ranks 6th in the leading causes of mortality and morbidity in the country. Although diagnosed as curable, an average of 75 Filipinos, mostly from the productive age group of 15-64, still die of the disease everyday.¹ It is also estimated that the country is losing approximately P8 billion annually from sickness and deaths due to tuberculosis.²

The tragedy of TB is that it continues to spread and kill, despite the availability of a cure for the past 50 years. The World Health Organization (WHO) report that people ill with TB can infect 10 to 15 others through close contact over the course of a year³. Without proper treatment, two thirds of them may die. Poverty, poor living conditions, limited health sector budgets, unfair financing systems that burden the poor, and inferior health systems have led to a resurgence of TB.

The Philippines ranks 8th in the WHO watch-list of 22 high-burdened countries in the world which constitute 80% of global tuberculosis cases⁴. Though this is a positive development coming from rank 6th in the previous years, the burden of TB incidence in the Philippines remains high at 296 per 100,000 population per year.

³ See "Tuberculosis: Still one of the deadliest treatable diseases in the Philippines. Accessed at <http://www.worldvision.org.ph/press-center/tuberculosis-still-one-deadliest-treatable-diseases-philippines> on June 20, 2016.

⁴ See "PH Winning Its Battle Against TB", March 23, 2015. Accessed at <http://www.gov.ph/2015/03/23/ph-winning-its-battle-against-tb/> on June 20, 2016.

In 2006, our country signed the Global Plan on TB, which seeks to reduce the prevalence and mortality of tuberculosis by 50% between 2006 and 2015. The Global Plan outlines a benchmark figure of 70% case detection rate, 85% treatment success rate and 85% cure rate.

Case detection rate for TB in the Philippines improved from 75% in 2006 to 85% in 2015.⁵ In like manner, treatment success rate just had a slight increase from 88% in 2006 to 90% in 2015.⁶ Meanwhile, average cure rate at 83% as of 2015 remains to be two percent short of the 85% target.⁷

However, despite the improvement in two of the benchmarks, our government still needs to continue its effort to further improve our program against TB with the aim of eradicating the disease.

This bill aims to treat and eradicate all TB cases in the Philippines by allowing all Filipinos afflicted with the disease all the benefits provided under the National Health Insurance Program of the Philippine Health Insurance Corporation, without the need to pay the monthly contributions. This would mean that all TB patients, whether a Philhealth card holder or not, will now be entitled to free hospitalization and treatment benefits in any public or private hospital. Expenses to be incurred will be chargeable against the National Health Insurance Fund created by Republic Act (R.A.) No. 7875, as amended by R.A. No. 10606.

With the cost of treating regular TB pegged at between P8,000 and P10,000, treatment of the 500,000 estimated TB cases in the country would cost about P4 billion to P5 billion pesos. This amount may be a little cost to pay in ensuring a TB-free population. Moreover, cost in the long term will be reduced once the disease is controlled if not totally eradicated.

In view of the foregoing, immediate approval of this measure is earnestly sought.

RALPH G. RECTO

SENATE

S. No. 828

RECEIVED BY: 

Introduced by Senator Ralph G. Recto

AN ACT
PROMOTING THE TREATMENT AND ERADICATION OF TUBERCULOSIS,
AMENDING FOR THE PURPOSE SECTION 12 OF REPUBLIC ACT NO. 7875, AS
AMENDED BY REPUBLIC ACT NO. 10606, OTHERWISE KNOWN AS "AN ACT
INSTITUTING A NATIONAL HEALTH INSURANCE PROGRAM FOR ALL
FILIPINOS AND ESTABLISHING THE PHILIPPINE HEALTH INSURANCE
CORPORATION FOR THE PURPOSE"

Be it enacted by the Senate and House of Representative of the Philippines in Congress assembled:

1 **SECTION 1. Short Title.** This Act shall be known as the "Alis TB Act of 2016".

2 **SEC. 2.** Section 12 of Republic Act No. 7875, as amended, by Republic Act No. 10606
3 is hereby further amended to read as follows:

4 "SEC. 12. *Entitlement to Benefits* – A member whose premium contributions for
5 at least three (3) months have been paid within the six (6) months prior to the first day of
6 his or his dependents' availment, shall be entitled to the benefits of the Program:
7 *Provided,* That such member can show that he contributes thereto with sufficient
8 regularity, as evidenced in their health insurance ID card: and *Provided further,* That he
9 is not currently subject to legal penalties as provided for in Section 44 of this Act.

10 "The following need not pay the monthly contributions to be entitled to the
11 Program's benefits:

12 a) Retirees and pensioners of the SSS and GSIS prior to the effectivity of this
13 Act;[and]

14 b) Lifetime members[.]; AND

15 **"C) ANY FILIPINO WHO IS AFFLICTED WITH TUBERCULOSIS:**
16 **PROVIDED, THAT ALL EXPENSES INCURRED FOR THE**
17 **TREATMENT/CONFINEMENT OF THE SAID DISEASE SHALL BE**
18 **CHARGED AGAINST THE NATIONAL HEALTH INSURANCE FUND**
19 **CREATED UNDER SEC. 24, ARTICLE VI OF REPUBLIC ACT NO.**
20 **7875, AS AMENDED BY REPUBLIC ACT NO. 10606."**

1 **SEC. 3. *Repealing Clause.*** - All laws, decrees, executive orders, rules and regulations, or
2 parts thereof which are inconsistent with this Act are hereby repealed, amended or modified
3 accordingly.

4 **SEC. 4. *Effectivity.*** - This Act shall take effect fifteen days (15) days following its
5 publication in the Official Gazette or in at least two (2) newspapers of general circulation.

Approved,
