

EIGHTEENTH CONGRESS OF THE)
REPUBLIC OF THE PHILIPPINES)
First Regular Session)

SENATE
S.B. No. 15

Introduced by Senator FRANKLIN M. DRILON

AN ACT INSTITUTIONALIZING AND STRENGTHENING PUBLIC-PRIVATE PARTNERSHIPS

EXPLANATORY NOTE

The PPP Act seeks not only incorporation of the lessons learned from the past and adoption of the best practices in Public-Private Partnerships, but it also aims to accelerate infrastructure development in the country.

The proposed measure adopts a policy of full disclosure of PPP projects and contracts. Under the proposed measure, the PPP Center is also made directly responsible for giving the public and Congress with adequate and timely information about PPP projects.

The proposed measure likewise addresses the impact of local taxes to PPP projects of national significance. The uncertainty of imposition of local taxes particularly real property taxes make the project costly and less attractive to the private sector. Hence, the bill provides for an exemption of projects of national significance from payment of real property tax.

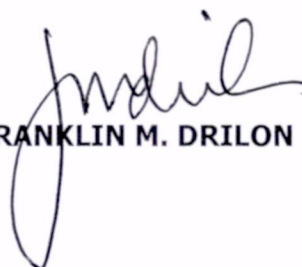

Another purpose of the bill is to foster competitiveness and transparency in unsolicited proposals. The sixty-working-day challenge period under the existing BOT Law is too short for interested challengers to submit their counter-proposals in an unsolicited project. Thus, the PPP Act proposes to extend the

challenge period to a maximum period of six months. Additional option is also being proposed under the Act wherein the implementing agencies may be allowed to convert unsolicited proposal into a solicited project and offer it as basis for competitive bidding, subject to reimbursement of project development cost in an amount not to exceed 3% of the project cost. This way, the government will realize the full benefits of competitive bidding.

The other salient features are as follows:

- Institutionalization of tested and proven initiatives and governance structures such as the Project Development and Monitoring Facility (PDMF), PPP Governing Board, and PPP Center;
- Expansion of the coverage of PPP by including Joint Venture and Operation and Maintenance contracts;
- Provision of clearer protests protocol or appeal mechanism in all stages of the procurement process;
- Prohibition of the issuance by courts, except the Supreme Court, of temporary restraining orders, preliminary injunction or preliminary mandatory injunction against any implementing agency, its officials or employees, or any person or entity, whether public or private acting under the government direction.
- Prohibition against regulatory bodies from entering into any PPP contract that they regulate; and
- Mandatory inclusion of Alternative Dispute Resolution (ADR) Mechanisms in all PPP Contracts.

In view of the foregoing, the urgent approval of this bill is earnestly sought.
