**AN ACT
ESTABLISHING A HUMAN TRAFFICKING PREVENTION EDUCATION
PROGRAM FOR THE YOUTH AND APPROPRIATING FUNDS THEREFOR**

EXPLANATORY NOTE

According to the 2014 Trafficking in Persons Report released by the U.S. Department of State the Philippines remains to be a Tier 2 country, meaning that our government has yet to meet the minimum standards for the elimination of trafficking. In 2014, the Department of Social Welfare and Development reported assisting 1,824 human trafficking victims nationwide. This official statistics is most likely a mere fraction of the actual number which includes unreported cases. These crimes often go unreported because victims lack information on human trafficking, and the families of victims accept the situation as normal.

Human trafficking in all of its forms, including forced labor and sexual exploitation, is a crime fundamentally repugnant to the values of the State and the basic dignity and rights of the Filipino. The lack of understanding and awareness of human trafficking continues to facilitate a culture of impunity for the perpetrators, and a burden of injustice for the victims. The Stat must assume a larger role in stopping trafficking at its source - by educating potential victims about the dangers of trafficking

and instructing them on how to seek protection from the government.

Our children are some of the most vulnerable victims of trafficking. Domestically, there are 2.2 million child labourers between the ages of 15-17, many of whom are engaged in hazardous unskilled working environments. Some children work in virtual slavery in the informal employment sector as domestic helpers. Others are exploited for prostitution and pornography, while children in war-torn areas with communist and Moro separatist movements are easy targets for forced conscription into the armed movements.

In order to empower the youth against the scourge of human trafficking, this legislation seeks to create a comprehensive Human Trafficking Preventive Education Program. The Program will arm members of the youth sector from all walks of life with the information they need to protect themselves from becoming victims of trafficking. In addition, the Program will institute grassroots reporting mechanisms to empower community members to take a stand against human trafficking with decisive action against the heinous criminals who seek to degrade our most fundamental human rights.

Support for the passage and approval of this legislation is earnestly sought.

SHERWIN T. GATCHALIAN
