EXPLANATORY NOTE

The Constitution, Article 16, Section 9, provides:

The State shall *protect consumers from trade malpractices*  
and from substandard or hazardous products. (Italics supplied)

From the vehicles we drive to the equipment we use, our society relies on gasoline to fuel our lives. The high demand for this commodity and recent fluctuations in its price warrant a closer look at the issue of predatory pricing.

This bill seeks to impose civil penalties on unreasonable price increases for crude oil, residual fuel oil, or refined petroleum products.
