**AN ACT  
TO ESTABLISH THE PHILIPPINE COAST GUARD ACADEMY ALLOCATING  
FUNDS THEREFOR, AND FOR OTHER PURPOSES**

**EXPLANATORY NOTE**

Section 5, Article II of the 1987 Philippine Constitution provides that the maintenance of peace and order, the protection of life, liberty and property and the promotion of general welfare are essential in order for the people of the Philippines to enjoy the blessings of democracy. The Philippine Coast Guard, as one of the armed and uniformed services of the country is duly authorized under Section 3 of Republic Act No. 9993, to perform these mandates through the enforcement of all relevant international laws, rules and regulations as well as all national laws within the maritime jurisdiction of the Philippines.

The Philippines as a maritime nation, is largely dependent on maritime trade for its socio-economic development. The significant role of the maritime trade is even more accentuated considering the government's objective of achieving national unity through connecting cultural values and social norms across the social strata of the country. In order to achieve this, there is therefore a need to ensure that the vital maritime routes all over the Philippines must remain free and open by ensuring that no threats of whatever nature will happen. Such is the state of Maritime Security wherein the country's marine resources and wealth, maritime trade and commerce, territorial integrity and coastal peace and order are protected, conserved and enhanced towards the attainment of sustainable development and socio-political cum economic progress of the nation.

In order to achieve this, not only should the Philippine Coast Guard enhance its assets and capabilities to respond to such maritime threats, there is likewise a need to ensure that its foremost asset, which is its manpower, should also have the required knowledge and capabilities not only in terms of operating its assets, but also the technical, operational and legal knowledge on Maritime Law Enforcement to ensure that all of its operations are in accordance with the legal limits as prescribed by law. Since the inception of the Coast Guard service, its main source of its personnel particularly its Officers, has been the Philippine Military Academy, the Philippine

administered by the Coast Guard Officer School, in the Coast Guard Education and Training Command.

These institutions however, for various reasons do not fully inculcate the ethos of Maritime Law Enforcement and Administration to its graduates, hence more time and resources are being spent in order to equip its officers with the technical skills and know-how in order to fulfill their duties as Coast Guard Officers.

Given the various tasks given to the Philippine Coast Guard under RA 9993 and with the peculiarities of its being the premier maritime law enforcement agency in the country, it is imperative that there must be a dedicated educational institution that would specifically cater to the needs of the Philippine Coast Guard and maritime law enforcement in general.

In order for the proposed Philippine Coast Guard Academy to be effective, the Academy should be established in an area of at least twenty (20) hectares, and adjacent or in close proximity to the sea and a dock, as well as medical facilities. The facilities of the Academy should be at par with world-class institution of the same field. The faculty should embody the needed expertise in the field of maritime education.

The creation of the Philippine Coast Guard Academy serves this purpose and will ensure that the Philippine Coast Guard shall have a well-trained and well-equipped pool of officers that are specifically honed to fulfill the Maritime Law Enforcement and Administration functions of the PCG.
