AN ACT CREATING A FRAMEWORK FOR THE SUSTAINABLE DEVELOPMENT GOALS

EXPLANATORY NOTE

The Philippines is a party to the 2030 Agenda for Sustainable Development adopted in September 2015. The 2030 Agenda for Sustainable Development, through the seventeen (17) Sustainable Development Goals (SDGs), is the global compact to achieve a better and more sustainable future for all, where nobody is left behind.

Meanwhile, the Philippines adopted *AmBisyon Natin 2040* through Executive Order No. 5, s. 2016. It embodies the collective long-term vision and aspirations of the Filipino people for themselves and for the country in the next twenty-five (25) years to enjoy a strongly-rooted, comfortable and secure life.

The commitment to the SDGs with the guidance of *AmBisyon Natin 2040* compels the government to align national policy towards sustainable development. Thus, this measure seeks to create a framework on sustainable development, incorporating the SDGs and their associated targets, while taking into account national interest and circumstances. The framework shall ensure that government agencies and local government units are working towards the achievement of the SDGs by 2030, and then building on the improvements made within that period towards the vision of *AmBisyon Natin 2040*.

In view of the foregoing, the immediate passage of this bill is earnestly sought.

 knowledge that we have enough for our daily needs and unexpected
 expenses, that we can plan and prepare for our own and our children's

freedom to go where we desire, protected and enabled by a clean, efficient, and fair government."
