AN ACT INCREASING THE BED CAPACITY OF BENGUET GENERAL HOSPITAL FROM TWO HUNDRED (200) TO FOUR HUNDRED (400), UPGRADING ITS FACILITIES AND HEALTH CARE SERVICE, AUTHORIZING THE INCREASE OF ITS MEDICAL PERSONNEL, AND APPROPRIATING FUNDS THEREFOR

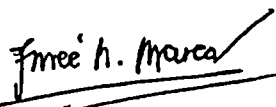

EXPLANATORY NOTE

Article II, Section 15 of the 1987 Constitution provides that the State shall protect the right to health of the people and instill health consciousness among them. It is the policy of the state to ensure that all communities have access to quality and accessible healthcare.

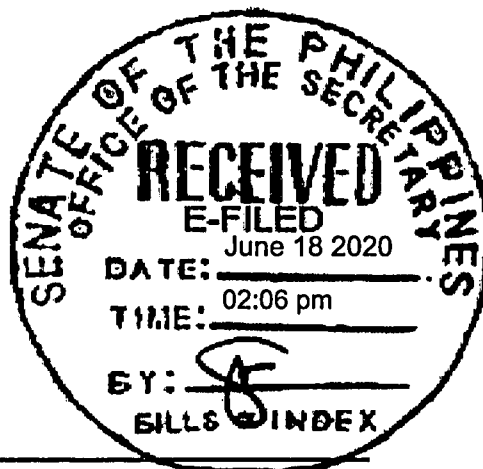

The Benguet General Hospital provides quality health and medical services to the people of Benguet and its neighboring communities like Pangasinan, La Union, Nueva Viscaya, and the Cordillera region. The fact that it accommodates a number of provinces and the growing population, an authorized bed capacity of two hundred (200) beds is inadequate to meet the demands of the people. Moreover, the current medical facilities and financial resources of the hospital is limited and thus, advanced medical and surgical procedures cannot be performed.

To address this problem, this bill seeks to increase the bed capacity of the Benguet General Hospital from two hundred (200) beds to four hundred (400) beds and upgrade its existing facilities and professional healthcare services, to be more responsive to the medical and health care needs of the people in Benguet and its neighboring communities.

In view of the foregoing, this representation earnestly seeks your support for the approval of this bill.
