S.B. 111

Introduced by Senator Aquilino Q. Pimentel, Jr.

EXPLANATORY NOTE

Children deserve to be given utmost protection against all forms of abuse, neglect and exploitation. Their rights must be respected and defended, and all efforts must be exerted in order to eliminate all conditions prejudicial to their full development.

This bill seeks to introduce planned substitute parental care by foster families to children whose biological parents cannot take care of them, either temporarily or permanently. Under this proposed legislation, a permanency plan for the best interest of the child shall be accomplished, and thereafter, the placement of the child with the foster family will be undertaken.

Foster families shall undergo training on management and care of children. Foster families may likewise adopt their foster children, provided they meet the requirements set forth under this proposed law.

Support services are given to biological parents through counseling and training on child caring and parenting. A foster parent shall likewise be entitled to tax deduction from his/her gross income for every foster child. The foster child on the other hand, shall be entitled to full care and support, including the provision of his/her basic needs.

Exploited, abused and neglected children are to be given substitute parenting so that they will feel the love and care of a family that will help them face a brighter future.

The passage of this bill is therefore earnestly requested.
