Senate Bill No. 400

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

**EXPLANATORY NOTE**

Telecommunications is an important industry in any country. It is an essential instrument in the fast, effective and efficient facilitation of personal and business transactions. The use of telephone provides convenience to the users from all parts of the globe.

This technology, however, is being abused and we have seen the commercial use of telephones for providing phone-sex services which are often referred to as "dial-a-porn" service providers. This provides accessible but expensive medium of transmitting lewd, lascivious, filthy or indecent messages.

The lack of law in our country to squarely address this problem causes the proliferation of such service providers that continues to corrupt the morals of our people, especially the youth. Indeed, strict penalties and sanctions should be imposed to violators to prevent, suppress and ultimately eliminate such kinds of activities.

This bill defines dial-a-porn, phone-sex business, pay-per-call services, and other similar acts as unlawful, and provides corresponding penalties to violators. It is hoped that this measure will solve the surging problem on indecent or obscene communications relayed through commercial use of telephones.

Responsible technology entails the upholding of the moral values of our society. Hence, the immediate approval of this proposed measure is earnestly sought.
