Senate Bill No. 502

---

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

---

**EXPLANATORY NOTE**

The Philippine labor market in recent years has been showing a dismal performance as the country's employment rates continue to decline. This slump in employment pushed the unemployment rate to a two-digit level, indicating a weak labor market. The unemployment scenario is expected to be worse and there will be substantial loss of job opportunities and income. There ought to be a deliberate effort on the part of government to improve the employment situation of the country.

To effectively address this problem, there should be an agency tasked solely to plan, manage and supervise local jobs and employment opportunities to abate the growing unemployment and underemployment.

This bill, therefore, seeks the creation of a Local Employment Authority as an attached agency of the Department of Labor and Employment (DOLE), which shall be responsible in planning and managing local employment promotion, facilitation, generation and enhancement for both wage and non-wage employment.

For this reason, the immediate approval of this bill is earnestly sought.
