Senate Bill No. 561

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

This bill seeks to address the need for a national policy legislation to regulate the disposition of real property acquired by the Government abroad for a public purpose, whether patrimonial in character or property forming part of the public dominion.

It should not require the force of logic to posit that real properties of the Government or any of its subdivision cannot be sold or disposed without the consent of the Government, more specifically Congress, which is the country's policy making body. Such consent may be given on a case-to-case basis, if there is no law embodying a general policy on the subject.

The need for congressional approval before government properties situated abroad can be sold will hopefully eliminate, if not lessen whatever controversy that may arise from said disposition.

Based on the foregoing, early approval of this bill is earnestly requested.
