Senate Bill No. 586

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

Section 16 Article II of the Constitution provides that, "The State shall protect and advance the right of the people to a balanced and healthful ecology in accord with the rhythm and harmony of nature." This constitutional provision is not self-executory and the State has the duty to enact laws to effectively respond to environmental problems besetting our country.

The dumping of wastes pollutes our seawaters thereby affecting harmfully the marine resources which undoubtedly a rich source of food for survival of the Filipino people.

Thus, in order to protect our marine resources and the interest of public health and safety, this bill seeks to penalize the dumping of wastes into sea waters.

In view thereof, the early passage of this proposed measure is highly recommended.
