Senate Bill No. 677

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

The disturbing increase in the number of reported sex-related offenses in the country has tremendously caused public panic and alarm, particularly amongst women and children. Indeed, it seems that despite stricter measures implemented by law enforcement agencies, the problem not only continues, but also worsens, with many sex offenders able to consummate their fiendish schemes against unsuspecting individuals.

Studies suggest that many sex offenders, albeit apprehended and convicted previously, continue doing heinous activities and are able to do so by relocating elsewhere so they may not be detected. This is unfortunate. Certainly, the many special penal laws against sex-related offenses so enacted of late shall be futile, unless ample public protection and warning is provided for.

The proposed measure aims to establish a national sex offender registration database in order to allow the public to obtain relevant information and data on convicted and suspected sex offenders, which may be of use not only to the general public, but particularly to various non-government organizations working for the protection of women and children who more often than not are the target victims of sex-related offenses.

Hence, immediate passage of this bill is earnestly sought.
