### EXPLANATORY NOTE

A strong Republic in order for it to remain strong, effective and democratic must have a strong, competent and professional military service abreast of recent developments in the various branches of the service and capable of providing effective and specialized training and educational programs to its officers.

An Armed Forces composed of officers trained in a general and non-specific or non-specialized manner leaves room for the improvement and enhancement of its members and organization, specifically in the specialized branches of the service.

It should be the policy of the State to promote the professionalization of the armed service so that it may effectively carry-out its mandate of assuring the sovereign's defensive integrity and security.

As officers trained particularly for the specialized branch of service, they will **be** commissioned to ensure that that AFP and its various branches will be led by technically and professionally competent leaders.

This bill proposes the establishment of a Philippine Naval Academy (PNA) to train Naval Officers of the AFP. The instruction will be a 2-year program, basing from the minimum General College Education requirements as established by the Commission on Higher Education (CHED).

The present facilities, equipment, applicable areas, faculty and administrative personnel of the Philippine Naval Training Command shall be absorbed by the PNA. The PNA shall establish a strong working relationship for specific academic as well as training facilities with the Philippine Merchant Marine Academy and other colleges, universities and institutions. Nothing prevents the PNA from establishing arrangements with colleges and universities to augment capabilities to train midshipmen.

Upon graduation from PNA *the* midshipmen shall be commissioned regular officers of the AFP. The baccalaureate degrees earned at the PNA prepare the graduates to pass certain government licensure examinations for mariners. And since the degrees acquired from PNA are CHED accredited, the graduates, will be able to use their academic and leadership training not only as Navy Officers but also as licensed mariners when they retire from the service after fulfilling the eight (8) year mandatory service to the Philippine Navy,

All in all the provisions of **this** bill will be highly beneficial to the AFP and to the country in general. Hence, the immediate passage of **this** bill is earnestly requested.
