EXPLANATORY NOTE

Thousands of outstanding students are consistently being acknowledged for their academic excellence and virtues. However, such accomplishments may have not been achieved if it were not for the perseverance of educators. They are considered as the unsung heroes of our times because many have neglected the role they play in the advancement of education in our country.

It is in this light that the State put emphasis on its duty to ensure that the performance and the morale of teachers will be kept at the highest level. Although the Magna Carta for Public School Teachers aims to protect the welfare of teachers, it is still insufficient to respond to the needs of teachers giving the high cost of living today.

The Magna Carta for Public School Teachers had failed to provide benefits to the dependents of teachers. Thus, this bill seeks to grant additional benefits to teachers by giving their dependents the right to scholarship grants, free medical treatment and pension in case of disability of the teachers. In addition, it also encourages teachers to form cooperatives in their own municipalities to help promote their economic welfare.

It is hoped that through this bill, the teachers will be motivated to work even harder in their task of shaping the minds of our youth. As we develop more competent and dedicated teachers, we can be assured of quality education for our youth, and for our nation - towards a better and enlightened future generation.

In view of the foregoing considerations, immediate approval of this bill is earnestly sought for.
