

FOURTEENTH CONGRESS OF THE
REPUBLIC OF THE PHILIPPINES
First Regular Session

7 JUL -4 195

SENATE

RECEIVED BY: Senate Bill No. 966

INTRODUCED BY HON. MANNY VILLAR

EXPLANATORY NOTE

The attached bill establishes a free medicine assistance program in a health district to benefit only the underprivileged, the elderly, the disabled and the poorest of the poor which shall be administered by the Department of Health, in coordination with the Department of Social Welfare and Development.

It is common knowledge that some of our countrymen die not because their sickness is incurable, but due to lack of medicine or proper medical treatment or assistance on account of poverty. The government cannot always remain indifferent to this reality; it must offer some direct help somehow for the intended beneficiaries to feel its impact. In this context, the bill seeks to answer, starting with this approach, the problem of lack of medicine the cost of which is now beyond the reach of many Filipinos on account of poverty.

The proposed legislation is mandated by the constitutional directives that the State shall protect and promote the right of the people to health (Sec 15, Article II, Constitution) and shall adopt an integrated and comprehensive approach to health development with the end view of making essential health services available to all the people at affordable cost, giving priority to the needs of the underprivileged, the sick, the elderly, the disabled and the women and children.

In this light, approval of this bill is earnestly sought.
