

FOURTEENTH CONGRESS OF THE REPUBLIC)
OF THE PHILIPPINES)
First Regular Session)

7 JUL -4 P.M.

SENATE
S.B. No. 1120

RECEIVED BY: 

Introduced by Senator Miriam Defensor Santiago

EXPLANATORY NOTE

This bill seeks to require schools to develop and implement a random drug testing and counseling program for students in high school. Under this bill, fifty percent of the grants would be used to perform random drug tests of high school students whose parents consent and fifty percent would be used to provide counseling services to high school students who test positive.

This measure provides that the test results go to the school and then the parents; law enforcement is barred from the results. However, when there is a second positive result, test results should go to a medical review officer and then directly to parents, and that school officials should also be notified. The only way to have drug-free schools is to follow the successful program of the military and the workplace.¹
