EXPLANATORY NOTE

This bill seeks to provide representation of senior citizens in local legislative and special bodies.

Senior citizens have a vital role in nation building. They have amassed valuable experiences as past or current leaders and prime movers in the nation's political, social and economic affairs. Based on 2000 Census, there are around 4.6 million senior citizens which accounts for 6 % of total population. There is a senior citizen in one out of every five households in the country. Around 80 % of all senior citizens are literate, 57.41 % are household heads and 57.07 % are gainfully and economically productive. These indicate that more than half of senior citizens have the capacity and the energy to participate in productive affairs in society.

The State recognizes that senior citizens have their special needs that should be addressed through the provision of public services. This is evident with the passage of Republic Act No. 7432 titled "An Act to Maximize the Contribution of Senior Citizens to Nation Building, Grant Benefits and Special Privileges and for Other Purposes" and other such laws. However, senior citizens have yet to be fully tapped to represent their own concerns and interests in public policymaking bodies. Local policymaking bodies are the most viable venue for involving active participation of senior citizens since they tend to be less mobile as evidenced by the 2000 census which showed that 95 % of senior citizens have remained in the same city/municipality where they lived five years prior to the census.

This bill seeks to promote the active participation of senior citizens in local governance and encourage them to advance their concerns through direct representation in local decision-making bodies.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
