

FOURTEENTH CONGRESS OF THE REPUBLIC)
OF THE PHILIPPINES)
First Regular Session)

7 SEP -3 2011

SENATE
S. No. 1516

RECEIVED BY: 

Introduced by Senator Miriam Defensor Santiago

EXPLANATORY NOTE

A local public school teacher often serves as a center for the delivery of education and human resources for all members of a certain community. In line with this, there is a need for the public schools, primarily in rural and urban city commodities, to collaborate with other public and non-profit agencies and organizations, local business, educational entities, recreational, cultural and other community and human service entities, for the purpose of meeting the needs of, and expanding the opportunities available to, the residents of the communities served by such schools.

By using school facilities, equipment, and resources, communities can promote a more efficient use of public education facilities, especially in rural and inner city areas where limited financial resources have enhanced the necessity for local public schools to become social service centers.

A high technology, global economy of the 21st Century will require lifelong learning to keep our workforce competitive and successful, and local public schools should provided centers for lifelong learning and educational opportunities for individuals of all ages.

This bill seeks the establishment of 21st Century Learning Centers to enable the entire community to develop an educational strategy that addresses the educational needs of all members of local communities.*

MIRIAM DEFENSOR SANTIAGO

* This bill was originally filed during the Thirteenth Congress, First Regular Session.
