EXPLANATORY NOTE

This bill exemplifies the affirmed objective of Republic Act 2305 or the Magna Carta of Public Health Workers *i.e.*, "to promote and improve the social and economic well-being of the health workers, their living and working conditions and terms of employment."

Specifically, it seeks to re-establish May 7 of each year as "Health Workers' Day" to give due respect and appreciation to the services of the main pillars of the country's health care system, ***our health workers***. They are our doctors, nurses, midwives, dentists, technicians, nutritionists, therapists, aides, and all other medical and allied professionals and support services personnel who work vigorously in our hospitals, clinics, barangay health centers and health care units in rural and urban areas.

Although Proclamation No. 96 (*Aquino, 1987*) declared May 7 of said year and every year thereafter as "Health Workers' Day," its commemoration is virtually non-existent to date, and along with it, the subject of its celebration. Thus, the bill.

Likewise, it is hoped that the annual public observance of the "Health Workers' Day" will draw awareness to the plight of our health sector and consequently, underscore the State's responsibility to allot sufficient budget priority on health and to improve the living and working conditions of our health workers.

Approval of this measure, therefore, is earnestly sought.
