SENATE

RECEIVED BY: 

S. No. 2183

Introduced by Senator Antonio "Sonny" F. Trillanes IV

EXPLANATORY NOTE

This bill seeks to provide the Sugar Regulatory Administration (SRA) with adequate funding to enable it to pursue and carry out its mandates and objectives under its Charter, Executive Order No. 18, dated May 28, 1986. Since its creation and organization, the activities and programs of the SRA, especially on research and development, have suffered continuous setback due to lack of funds.

In the consideration of this bill, it is noteworthy to point out the historical fact that the predecessors of the SRA, namely, the Philippine Sugar Institute and the Sugar Quota Administration, were adequately funded from the following sources:

1. Commonwealth Act No. 567 (Sugar Adjustment and Stabilization Fund) which imposed a P0.02 basic tax on every picul of the total marketable sugar manufactured.
2. Republic Act No. 1328 (Philippine Sugar Institute Special Fund) which provided that the P0.02 basic tax per picul collected under C.A. No. 567 shall be availed for use of the Philippine Sugar Institute.
3. Republic Act No. 3051 providing that the 50% of the Proceeds of the percentage tax shall accrue to the Sugar Research and Stabilization Fund.

The revenue derived under the aforecited laws accrued to the research and development programs of the agencies, which preceded the SRA. The said laws were repealed upon the adoption of the Value Added Tax (VAT) on January 1, 1988, pursuant to Executive Order No. 273, leaving no provision for the continuance of the source of funds for the SRA.

It is noted that the share of the component of the industry in the present tax burden is not efficiently channeled back to where it should --- the sugar industry and the agency charged with the stabilization and promotion of its growth and development --- the SRA.

This bill, therefore, seeks to correct an oversight, if not an injustice, and to provide a mechanism by which VAT collections on sugar and its by-products are channeled back to the sugar industry in the form of funding for the SRA.

In view of the foregoing, approval of this bill is earnestly recommended.
