#### EXPLANATORY NOTE

The Constitution, Article II, Section 15, provides:

The State shall protect and promote the right to health of the people and instill health consciousness among them

Massage is a part of the Filipino culture, as well as in the majority of our Southeast Asian neighbors. Qualified massage practitioners and therapists invested in their vocation the knowledge of anatomy and physiology, with an understanding of the relationship between the structure and the function of the tissues being treated and the total function of the body. Regulating the practice of massage against unqualified practitioners and establishments is in the interest of public health, safety, and welfare. This bill not only aims to standardize the qualifications of massage therapists, but will also curb prostitution that uses massage parlors as fronts of their illicit trade
