OFFICE SECRETARY

FOURTEENTH CONGRESS OF TH	IE REPUBLIC)		
OF THE PHILIPPINES)	***	- marine #15573
First Regular Session)	E	MFR 29

SENATE S. B. No. <u>22</u>15 HECEIVED SY:

Introduced by Senator Biazon

EXPLANATORY NOTE

This bill proposes to amend the baselines of the Philippine Archipelago defined and delineated under Republic Act No. 3046, as amended by Republic Act No. 5446, to conform to the United Nations Convention on the Law of the Sea, particularly Article 47 thereof which provides:

Art. 47. Archipelagic baselines

- 1. An archipelagic State may draw straight archipelagic baselines joining the outermost points of the outermost islands and drying reefs of the archipelago provided that within such baselines are included the main islands and an area in which the ratio of the area of the water to the area of the land, including atolls, is between 1 to 1 and 9 to 1.
- 2. The length of such baselines shall not exceed 100 nautical miles, except that up to 3 per cent of the total number of baselines enclosing any archipelago may exceed that length, up to a maximum length of 125 nautical miles.
- 3. The drawing of such baselines shall not depart to any appreciable extent from the general configuration of the archipelago.

XXX XXX XXX

It bears stressing that under Article 48 of the Convention, "the breadth of the territorial sea, the contiguous zone, the exclusive economic zone and the continental shelf shall be measured from archipelagic baselines drawn in accordance with article 47."

The bill likewise reiterates our sovereignty over the Kalayaan Group of Islands declared as part of the Philippine territory under Presidential Decree No. 1596. As part of the Philippine territory, they shall be considered as a "regime of islands" under Article 121 of the Convention.

Under Article 46 of the Convention, "Archipelagic States" are explicitly acknowledged and they may be constituted "wholly by one or more archipelagos and may include other islands".
