

**FOURTEENTH CONGRESS OF THE)
REPUBLIC OF THE PHILIPPINES)
First Regular Session)**

SENATE

RECEIVED BY: 

S. No 2235

Introduced by Senator Antonio "Sonny" F. Trillanes IV

EXPLANATORY NOTE

This bill seeks to repeal the 40-year old Republic Act No. 4209, otherwise known as the Geology Profession Law of the Philippines and to enact a new law governing the practice of geology profession in the Philippines which is more relevant to contemporary conditions and challenges.

The geology profession has become even more vital in the current climate of intensive search for energy sources, mineral resource development, mitigating natural hazards, geotechnical studies for infrastructures, and environmental planning and monitoring. Hence, this bill seeks to make geology education and practice more attuned to global standards and at the same time protect the practice of the profession in the country from unqualified foreign professionals.

This bill also seeks to clearly define and delineate the scope of the geological profession especially with respect to allied fields such as mining and metallurgical engineering. Moreover, it addresses the Board of Geology's authority in the conduct of the education, examination, and licensing of geologists.

In view of the foregoing, immediate approval of this bill is earnestly sought.
