Senate Bill No. 81

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

It is the duty of the State to protect and promote the right to health of the people and instill health consciousness among them, as enshrined in Article 11, Section 15 of the Constitution.

There are thousands of people in the country today, especially those who live in the countryside, who cannot avail of the proper medical attention due to lack of adequate medical facilities and health personnel in their respective localities.

At present, an insignificant number of our countrymen volunteer their services in the countryside assisting health personnel in their day-to-day dealings with the health needs of the people in the *barangays*. However, their number proves inadequate to meet the medical requirements of our *barangay* folk.

In response to this felt need, this bill seeks to mandate the Department of Health to provide at least one health worker in every *barangay*. It is also the intention of the bill to provide *barangay* health workers honorarium and other benefits in recognition of their services rendered in the service of the people.

In view of the foregoing considerations, early approval of this bill is earnestly sought.
