EXPLANATORY NOTE

Quality education is expensive and not everybody can afford it. It is a sad reality that although education is accessible to most students since we are provided with state schools and universities, this cheap alternative comes with the cost of a poor education system.

This bill seeks to establish a grant program for certain part-time, independent students, and to prescribe the powers and duties of certain state agencies and institutions of higher education, in order for quality education to be affordable for everybody.<sup>1</sup>
