### EXPLANATORY NOTE

Congress is mandated under the law to undertake a mandatory review of Republic Act No. 7160 otherwise known as the Local Government Code of 1991.

In various consultations with concerned constituents nationwide, it has been determined that amendments to the Local Government Code of 1991 should be introduced to rationalized agricultural services.

The recent passage of Republic Act No. 8435 otherwise known as the Agriculture Modernization Act of 1997 makes it imperative that the Department of Agriculture, the lead department tasked to implement the law, for its monitoring and data gathering requirements, shall have complete administrative control and supervision over all personnel in the field level that are involved in agriculture and fishery, in order to effectively implement and achieve the objectives of the Agriculture and Fisheries Law. More so, the DA devolved agricultural extension workers are a potent force that can be utilized to pole vault the country's present agricultural growth to fast growing agricultural-based economy.

Time and again, the government has always placed agricultural productivity as one of its priority and to address this thrust it is imperative to amend certain provisions of the Local Government Code for the effective and efficient implementation of its program thrusts.

With the above cited reasons, the urgent passage of this Measure is earnestly requested.
