Senate Bill No. 471

INTRODUCED BY SEN. JINGGOY EJERCITO ESTRADA

EXPLANATORY NOTE

All children are entitled the rights guaranteed by the laws of our country, without distinction and discrimination. Article XV, Section 3 (2) of the Constitution states that:

“The State shall defend the right of the children to assistance including proper care and nutrition and special protection from all forms of neglect and abuse, cruelty, exploitation, other conditions prejudicial to their development.

This is magnified by the provisions of PD 603 or the Child and Youth Welfare Code, as amended, on the Rights of the Child, providing that:

“Every child has the right to a balanced diet, adequate clothing, sufficient shelter, proper medical attention, and all basic physical requirements of a healthy and vigorous life.” (Art. 3(4).

It is a major cause of concern that despite all these safeguards, the rampant practice of certain hospital’s refusal to attend to the medical and dental needs of street children despite the immediacy and the urgency of such need due to the street children’s inability to provide “deposits” is still practiced;

We should put an end to such practice by providing for a law that would require both private and public hospitals and clinics to render free medical and dental services to indigent children, and penalizing those who will violate such requirement. This bill requires all medical institutions to extend health services to indigent children, which includes but is not necessarily limited to street children. Only through a concrete legislative measure can we fully realize the principles and policies sought to be effected by the various laws protecting the rights of the child.

In line with the State's evolving agenda on defending the rights of the child the immediate passage of this bill is profoundly sought.
